Wealth Redistribution

- What Is Wealth Redistribution - income redistribution a policy concerned with altering the pattern of the PERSONAL DISTRIBUTION OF INCOME in an economy, mainly with social rather than economic objectives in mind. - What is Wealth Redistribution Practice -
The transfer of income from one section of the community to another is achieved primarily by the use of a PROGRESSIVE TAXATION system and a variety of welfare provisions (subsidized housing, old age pensions, etc).

How To Decriminalize Sex Work

Im Sure You Asking How Does Sex Work Relate Because It Involves VOU's Usually In The Process And Sex Work Is In The Realm Of All Of This I Figure If We Going To Tackle The War On Drugs Why Not Tackle Everything.

I used to do Survival Sex Work And It Was Lucrative For Me And My Bread And Butter until It Wasn't Because it Had Become Unsafe After FOSTA-SESTA ACT.

How I Overcame Survival Sex Work It Wasn't Due To My Own Doing I Didn't Have No Other Choice So I Entered Back into Non – Profit.

I Feel There Is a Way To Support Sex Workers Safely And Make Some Taxes Off It.

Could Use The Same Model That is Used For Adult Entertainers in The Adult Clubs.

Harm Reduction model

Harm Reduction Definition

- Harm Reduction - Harm reduction incorporates a spectrum of strategies that includes safer use, managed use, abstinence, meeting people who use drugs “where they’re at,” and addressing conditions of use along with the use itself. Because harm reduction demands that interventions and policies designed to serve people who use drugs reflect specific individual and community needs, there is no universal definition of or formula for implementing harm reduction.
